Volume 17, 2006 Supplement 3

4th International Symposium on Targeted Anticancer Therapies (TAT 2006)

16–18 March, 2006: Amsterdam, The Netherlands

TAT 2006 sponsors & grants	iii4	plenary session 6:	promising agents targeting membrane receptors	iii26
welcome to TAT 2006!	iii5	plenary session 7:	immunological targets and mechanisms	iii28
MDICT Task Force: Methodology for the Development of Innovative Cancer Therapies	iii6	plenary session 8:	new technologies and new approaches to targeted cancer therapy	iii30
committees	iii7	plenary session 11:	miscellaneous agents: preclinical and clinical studies	iii31
meeting schedule at a glance	iii8	poster session 1:	new drug targets, drug design and drug discovery	iii34
meeting schedule, Thursday, March 16	iii9	poster session 2:	preclinical drug profiling	iii37
meeting schedule, Friday, March 17	iii10	poster session 3:	molecular diagnosis, patient selection and prognosis	iii42
meeting schedule, Saturday, March 18	iii15	poster session 4:	vaccines, monoclonal antibodies and other immunotherapies	iii47
abstracts		poster session 5:	phase I and II studies of new agents	iii49
plenary session 1: opening and keynotes	iii17	poster session 6:	post-registration clinical research	iii51
plenary session 2: angiogenesis and vascular-targeting agents	iii20	subject index		iii53
plenary session 3: clinical trial design for targeted agents	iii21	author index		iii55
plenary session 4: targeting apoptosis	iii23			
plenary session 5: promising agents targeting downstream signalling pathways	iii24
