Official Journal of the
European Society for Medical Oncology

Volume 18, 2007 Supplement 4

5th International Symposium on Targeted Anticancer Therapies (TAT 2007)

8–10 March, 2007: Amsterdam, The Netherlands

TAT 2007 sponsors & grants	iv5	plenary session 5: signal transduction modulators and mitosis inhibitors	iv23
welcome to TAT 2007!	iv6	plenary session 6: immunotherapeutic approaches to cancer therapy	iv24
MDICT Task Force: Methodology for the Development of Innovative Cancer Therapies	iv7	plenary session 7: new drug targets	iv26
committees	iv8	plenary session 8: methodological and regulatory issues in oncology drug development	iv28
meeting schedule: overview	iv9	plenary session 9: proffered papers and poster review	iv29
meeting schedule, Thursday, March 8	iv10	plenary session 10: apoptosis as a drug target	iv30
meeting schedule, Friday, March 9	iv11	poster session 1: new drug targets	iv31
meeting schedule, Saturday, March 10	iv16	poster session 2: preclinical drug profiles	iv33
		poster session 3: prodrugs, conjugates and new formulations	iv38
abstracts		poster session 4: clinical studies	iv39
plenary session 1: opening, keynotes and reviews	iv17	poster session 5: angiogenesis and tumor vasculature	iv42
plenary session 2: phase I & II studies of targeted agents	iv18	poster session 6: signalling pathways and apoptosis	iv44
plenary session 3: angiogenesis inhibitors and vascular targeting agents	iv20	poster session 7: molecular diagnosis, patient selection and prognosis	iv47
plenary session 4: inhibitors of growth factor receptors and their tyrosine kinases	iv21	subject index	iv51
		author index	iv53
